Existing-log audit: LIBERO-10 task 0, initial state 0
A. Paths diverge before the first writer event
Original instruction
Instruction + static memory
EEF to alphabet-soup body center (cm)
Completed action step
Same recorded seed and settling snapshot.
First inferred grasp in memory run: step 295.
B. Closure alone generates grasp → slip
Writer's grasp interval
Recorded finger gap
"grasp"
"slip"
Finger gap (mm)
Completed action step
Named target remains 11.5–12.1 cm away.
No logged bilateral contact; target height unchanged.
